

Innovations in timber engineering
Innovationen für den Holzbau

Invitation
Hundegger
innovation day

1st March 2011

www.hundegger.de

Day program

Dear business partners,

we cordially welcome you to Hundegger in Hawangen to experience the "future of pre-fabricated house construction" live on 1st March 2011. For the first time, we are going to present our latest innovation in high-end panel processing "The SPM2" machine with integrated in- and outfeed system.

The highlights of our day program include:

- **Lecture**
"Innovations in timber frame construction"
Prof. Ulrich Grimminger will give a lecture on the current developments and the future in timber construction.
(Professor for engineering and structural testing, UAS Rosenheim, Faculty of wood technology and industrial engineering)
- **Presentation of the SPM2**
Presentation and live demonstration of the SPM2 including our fully automated in- and outfeed systems.

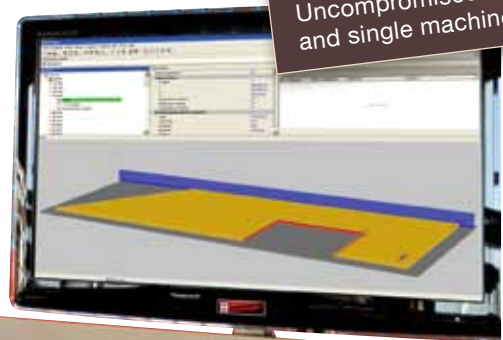

This is a rare opportunity for an exclusive preview of what is soon to be installed in one of Germany's leading prefabricated house manufacturing companies.

We are looking forward to welcome you.

Hans Hundegger

- 9.00 a.m. Arrival of the participants
- 9.30 a.m. Reception
- 9.45 a.m. Lecture
"Innovations in timber frame construction"
- 10.45 a.m. Presentation of the SPM2
- 12.00 p.m. LIVE demo of the high-end SPM2 panel processing machine
